## Academic Project

---

### Main Project:-

**Title: E-Learning (BCA)-Android App (Using Android Studio)**

**Description:** BCA Android application gives complete solution of all query of student as well as provide material and notes with proper example to make the concept very clear to student.

BCA Android application is a Standalone application that doesn't need any internet connection after it's been downloaded once from Google play store.

By doing this project I learnt Basics about XML, HTML, CSS, JAVA, and Animations also learnt using IDE like Android Studio

### Mini Project:-

**Title: CAR RENTALS Web Application**

Learnt HTML, JAVA, CSS, PHP, MySQL

**Description:** The system that is going to be developed is known as the CRMS whereas the system is a web based application system. The main users of this system are administrator, client (Renter). This system also includes a simple view of cars, car capacity, colour, and many other information about cars that we offer to rent.
